PREFACE

WHY USE THIS REWORK

Players hate missing critical information when their characters can't read something in-game, and you can't always have the comprehend languages spell prepared. On the other hand, ask any DM, and they'll let you know handwritten calligraphy in made-up fonts can be a headache.

The purpose of the rework was two-fold, to make it easier for players and DMs alike.

PLAYER BENEFITS

- The ability to speak/understand additional languages
- Better return from your known languages
- Pre-assembled fonts to easily decode handouts
- Adds opportunity for more roleplaying with diverse NPCs

DM BENEFITS

- Easy rules for understanding additional languages
- Free downloadable fonts for all languages with written scripts
- Make handouts in seconds. Just type your message, change the font, and print!
- Adds opportunity for more roleplaying with diverse NPCs

PLAYER HANDOUTS !

No need to shuffle through pages of this brew, [you can download the pre-made handouts here](#). You can either share the files directly or print them out. Either way you'll give you players a copy of the language groups, and a per language sheet for each language known. We'd also recommend keeping a copy of the full codex on hand to share with player during the use of comprehend languages or similar effects.

HOW IT WORKS

This rework puts all languages (spoken and written) into 11 major groups. Each group is comprised of similar languages based on themes, locations, and commonalities between the species that use them.

The reasons for a character to understand similar languages are boundless. Could be a backstory, skill sets, plot armor, or any other reason you want.

UNDERSTANDING DIFFERENT LANGUAGES

If a PC tries to speak, read, or eavesdrop on a language they do not know, but it is in the same group as one they do know; the PC can attempt to understand the unknown language. Since it is a different language entirely you may not understand every word, but usually can walk away with the gist of a situation.

As part of this process, the DM can either ask for a skill check or have a plot-driven reason to just let the PC understand. We've provided some example skill checks below to help get you started.

EXAMPLE SKILL CHECKS

- **Arcana:** During your spell research, you learned additional scripts
- **History:** During your time in the library, you've studied other scripts
- **Insight:** Between the NPC's facial expressions and the broken conversation, you're able to communicate
- **Investigation:** Looking closer, you find similarities in the text
- **Perception:** The context from the few words you understand and the NPC's body language is enough to communicate
- **Performance:** Between a mixture of charades and hand puppets you're able to get your point across
- **Religion:** During readings of sacred texts, you've familiarized yourself with other scripts

PART 1

Language Groups

LANGUAGE GROUPINGS

This rework puts all languages (spoken and written) into 11 major groups. Each group is comprised of similar languages based on themes, locations, and commonalities between the species that use them.

You can find more information about the grouping of languages below.

GROUP DETAILS

The 11 different groups are:

Astral	Heavens & Hells
Beastial 1	Mean & Green
Beastial 2	Old Ones
Common Speech	Smol
Down Under	Secret Languages
Elvin	

ASTRAL

This group contains **Gith and Vedalken** both races trying to achieve a “higher state of being” or both coming from planes beyond the material realm.

BEASTIAL 1

This group contains three “monstrous races,” being **Gnoll, Leonin, and Naga**. These three were grouped since animals of the same species would be considered predators in a feral state.

BEASTIAL 2

This group contains three “monstrous races,” being **Aarakocra, Loxodon, and Minotaur**. These three were grouped since animals of the same species would be considered prey or non-violent in a feral state.

COMMON SPEECH

This group contains **Common and Mimicry**. The languages in this group are all based on English. While Halfling’s script is in English font, it does use a “shorthand” that not everyone can understand.

DOWN UNDER

This group contains **Undercommon, Deepspeech, and Krual**, both races that live underground or in caverns concealed by the darkness.

ELVIN

This group contains **Elvish and Sylvan**, both languages having roots tieing to fey ancestry; it was an easy choice to put them together.

HEAVENS & HELLS

This group contains **Abyssal, Celestial, and Infernal**. The group has languages of all the holy beings, friends, and hell dwellers.

MEAN & GREEN

This group contains **Giant, Goblin, and Orcish**. While this group may initially seem like a strange pairing, the three could be green and usually portrayed as mean.

OLD ONES

This group contains **Draconic, Merfolk, & Primordial** including its four dialects **Aquan, Auran, Ignian, and Terran**. While Primordial has a written script, the four dialects do not. Therefore, it is up to DM interpretation if a player who speaks a dialect can understand the Primordial base script.

SMOL

This group contains **Dwarvish, Gnomish, and Halfling** since both races are, in fact, small and focus their time on inventions or innovations through different mediums.

SECRET LANGUAGES

This group contains multiple scripts from Secret Languages, Glyphs, Runes, & Sigils. Some of these have a spoken form, while others are written only. The members of this group are **Druidic, Magi, Thieves' Cant, and Undead**.

Unlike the other groups, players won’t be able to make any additional checks or understand different languages in this group. Players will only be able to understand the languages of this group if explicitly listed on their character sheet.

THIEVES CANT CHANGES

ORIGINAL

Thieves Cant is defined as a secret mix of dialect, jargon, and code that allows you to hide messages in seemingly normal conversation. It also “takes four times longer to convey such a message than it does to speak the same idea plainly.”

This ruling makes using Thieves Cant worse than using simple innuendo or a shared language to communicate an idea privately. The only benefit to this version is the details of its written form.

UPDATED

Our version of Thieves Cant doesn't have a written form but it does contain some benefits for verbal communication.

If two characters share Thieves Cant they can seamlessly use innuendos or speak in a cryptic manner that others around them do not understand, even though they are speaking in a normal conversational language. In addition, this version retains all the benefits of the original of its written form.

HOMEBREW LANGUAGES

The following languages are optional and are not included in the official WotC Cannon.

MAGI

Magi are the magic symbols used by arcane scholars in ancient scrolls and scriptures to help document findings. Magi isn't used for spell casting, but many arcane sigils originate from Magi characters. This concept for Magi is similar to how doctors use Latin in the real world. This text is universally understood by those who study, derive powers from the arcane arts, and magical backgrounds. Such as but not limited to **Artificers, Bards, Sorcerers, and Wizards**.

UNDEAD

The language of those who cross over to the other side. Unknown to many mortals but regularly used among the servants of undeath. Undead text is universally understood by those with a background, study, or derive their powers from the dark arts or influences of necromancy. Such as but not limited to **Clerics, Warlocks, and Wizards**.

HEAVENS & HELLS

This group contains **Abyssal**, **Celestial**, and **Infernal**.

The group has languages of all the holy beings, friends, and hell dwellers.

DRACONIC

LANGUAGE GROUPING

Name	Spoken	Written	Sample Text	Group
Draconic	✓	✓	dra'kōnīk	Old Ones
Merfolk	✓	✓	me'rōfōk	Old Ones
Primodial	✓	✓	prī'mōdēl	Old Ones
Aquan (Primodial Dialect)				Old Ones
Auran (Primodial Dialect)				Old Ones
Ignian (Primodial Dialect)				Old Ones
Terran (Primodial Dialect)				Old Ones

OLD ONES

This group contains **Draconic, Merfolk, & Primordial** including its four dialects **Aquan, Auran, Ignian, and Terran**. While Primordial has a written script, the four dialects do not. Therefore, it is up to DM interpretation if a player who speaks a dialect can understand the Primordial base script.

DRUIDIC

⌚	⌚	⌚	⌚	⌚	⌚	⌚	⌚	⌚	⌚	⌚	⌚	⌚

SECRET LANGUAGES

This group contains multiple scripts from Secret Languages, Glyphs, Runes, & Sigils. Some of these have a spoken form, while others are written only. The members of this group are **Druidic**, **Magi**, **Thieves' Cant**, and **Undead**.

Unlike the other groups, players won't be able to make any additional checks or understand different languages in this group. Players will only be able to understand the languages of this group if explicitly listed on their character sheet.

HOME BREW LANGUAGES

MAGI

Magi are the magic symbols used by arcane scholars in ancient scrolls and scriptures to help document findings. Magi isn't used for spell casting, but many arcane sigils originate from Magi characters. This concept for Magi is similar to how doctors use Latin in the real world. This text is universally understood by those who study, derive powers from the arcane arts, and magical backgrounds. Such as but not limited to **Artificers**, **Bards**, **Sorcerers**, and **Wizards**.

MERFOLK

Aquan (Primodial Dialect)				Old Ones
Auran (Primodial Dialect)				Old Ones
Ignian (Primodial Dialect)				Old Ones
Terran (Primodial Dialect)				Old Ones

OLD ONES

This group contains **Draconic**, **Merfolk**, & **Primordial** including its four dialects **Aquan**, **Auran**, **Ignian**, and **Terran**. While Primordial has a written script, the four dialects do not. Therefore, it is up to DM interpretation if a player who speaks a dialect can understand the Primordial base script.

SECRET LANGUAGES

This group contains multiple scripts from Secret Languages, Glyphs, Runes, & Sigils. Some of these have a spoken form, while others are written only. The members of this group are **Druidic**, **Magi**, **Thieves' Cant**, and **Undead**.

Unlike the other groups, players won't be able to make any additional checks or understand different languages in this group. Players will only be able to understand the languages of this group if explicitly listed on their character sheet.

THIEVES CANT CHANGES

ORIGINAL

Thieves Cant is defined as a secret mix of dialect, jargon, and code that allows you to hide messages in seemingly normal conversation. It also “takes four times longer to convey such a message than it does to speak the same idea plainly.”

This ruling makes using Thieves Cant worse than using simple innuendo or a shared language to communicate an idea privately. The only benefit to this version is the details of its written form.

UPDATED

Our version of Thieves Cant doesn't have a written form but it does contain some benefits for verbal communication.

If two characters share Thieves Cant they can seamlessly use innuendos or speak in a cryptic manner that others around them do not understand, even though they are speaking in a normal conversational language. In addition, this version retains all the benefits of the original of its written form.

UNDEAD

A	B	C	D	E	F	G	H	I	J	K	L	M

SECRET LANGUAGES

This group contains multiple scripts from Secret Languages, Glyphs, Runes, & Sigils. Some of these have a spoken form, while others are written only. The members of this group are **Druidic**, **Magi**, **Thieves' Cant**, and **Undead**.

Unlike the other groups, players won't be able to make any additional checks or understand different languages in this group. Players will only be able to understand the languages of this group if explicitly listed on their character sheet.

HOME BREW LANGUAGES

UNDEAD

The language of those who cross over to the other side. Unknown to many mortals but regularly used among the servants of undeath. Undead text is universally understood by those with a background, study, or derive their powers from the dark arts or influences of necromancy. Such as but not limited to **Clerics**, **Warlocks**, and **Wizards**.

SPECIAL THANKS

Mike

I owe full credit for the original idea of having players be able to understand similar languages to you. Thank you for inspiring me with this fantastic idea. It turned out great and is already a fun addition to my home game with the family.

Lacey

You're simply the best! Thanks for being a great player and always asking questions to get me thinking. I appreciate your help proofreading this and picking out the fonts.

EXPANSIONS FOR EVERY OCCASION

We truly hope you enjoyed this expansion!

Families & Dragons is a collaborative group project to create new modules, expansions, and homebrews for 5th Edition D&D.

You can find more original content over at:

<https://familiesanddragons.github.io>.
